How to read this comparison

These assessments concern the selected documents, not every law applicable in their jurisdictions. Compare the cited provisions, scope, legal status and dates. Matching categories do not establish matching duties; missing entries do not establish legal gaps.

Question for further analysis: Are compute thresholds (10^{2}u FLOPs EU, 10^{2}v FLOPs US) a defensible proxy for governance-relevant capability, given algorithmic-efficiency improvements? Field is split.
