Generated 2026-11-19T01:06:06 UTC

Summary

Risk-based framework. Prohibited practices (Art. 5) effective 2 February 2025; general-purpose AI obligations (Arts. 51-55) 2 August 2025; high-risk system obligations (Title III) 2 August 2026. Staggered 6/12/24-month application timeline from 1 August 2024 entry-into-force per Regulation (EU) 2024/1689 Art. 113.

CANONICAL-FACTS CORRECTION (2026-07-17): adoptedDate was "2024-07-12" — WRONG. That is the Official Journal PUBLICATION date, not the adoption date. The Regulation was adopted/signed on 13 June 2024: its formal title reads "Regulation (EU) 2024/1689 ... of 13 June 2024", its signature block reads "Done at Brussels, 13 June 2024" (R. Metsola for the Parliament, M. Michel for the Council), and EUR-Lex records 13/06/2024 as both "Date of document" and "Date of signature". The error was CERTIFIED by a canonical-facts pin whose own rationale read "(Official Journal publication)" — i.e. the pin named the very event that is not adoption. It also broke the catalog's own convention: every other row dates adoption to the signature event (cf. EU-PLD-2024, adopted 2024-10-23, published 2024-11-18). effectiveDate (2024-08-01) is UNAFFECTED and verified correct: Art. 113 sets entry into force at the twentieth day following OJ publication (12 Jul + 20 = 1 Aug 2024), so the 12 July date remains load-bearing there — it was simply recorded in the wrong field.
