Summary

The substantive governance work happening at, between, and around multilateral fora: treaty negotiations, AI Safety Institute network MoUs, forum-shifting between G7 / G20 / OECD / UN, regulatory arbitrage. Distinct from any specific instrument; this is the meta-domain of how governance moves.

Contested question

Will AI-governance coordination converge on the OECD / UN / G7 / GPAI / bilateral-MoU mode, or fragment into bloc-based regimes (US-led / EU-led / China-led)? Field consensus is forming but unsettled.
